# COMPANY OVERVIEW

**Neupha Life Sciences** is an emerging global pharmaceutical company dedicated to providing high-quality, affordable, and innovative healthcare solutions. Headquartered in Mumbai, the company has established a strong presence across Latin America, Southeast Asia, Africa, and the Middle East. With a deep commitment to improving patient outcomes, Neupha focuses on key therapeutic areas including Cardiology, Metabolic Disorders, Infectious Diseases, Critical Care Injectables, and Oncology.

Neupha Life Sciences operates with a robust regulatory framework, ensuring compliance with WHO-GMP, EU-GMP, and other stringent international standards. Our company is backed by a highly skilled team of industry professionals, experienced in global pharmaceutical marketing, regulatory affairs, and supply chain management. We take pride in our ability to offer a diverse product portfolio, including high-value generic formulations and speciality medicines.

# Global Presence & Market Reach

At Neupha Life Sciences, we are committed to delivering high-quality pharmaceutical solutions across international markets. With a strong global footprint, we have established our own affiliate companies in Myanmar, South Africa, Cambodia, and the UAE. These affiliates play a crucial role in the marketing and distribution of pharmaceutical products, ensuring seamless access to innovative healthcare solutions in their respective regions.

Our strategic presence in these key markets enables us to:

- **Expand Market Access** – Partnering with leading pharmaceutical companies to bring high-quality medicines to diverse populations.
- **Ensure Regulatory Compliance** – Adhering to country-specific pharmaceutical regulations and quality standards.
- **Drive Growth & Innovation** – Leveraging our deep market insights to optimize supply chains and enhance patient care.

Through collaboration, expertise, and a commitment to excellence, Neupha Life Sciences continues to strengthen its position as a trusted partner in global healthcare.
